Boomers Enter the Sisseton Reservation.

A Frantic Scramble When the Signal was Given at Noon.

Thousands Join in the Race to Se cure Choice Location.

The Long Expected Day Passes Off With Preparing for the Opening in Indian Territory.

Bu Telegraph to The Times. St. Paul, April 15.—[By the Associated Press.] Reports from Sisseton Reservation this morning indicated that the weather was all that could be de sired for the opening, but the conditions under foot were most unfavorable. The whole country was a sea of mud and water, and the race for choice selections was to the strong instead of the swift. Several townships are submerged. Daylight found lines of filers at Fargo and Watertown. Sunlight also disclosed long lines of home-seek-ers and town site boomers stretched along the boundaries of the reservation held back only by the guns of the sol-diers and fear of their claims being thrown out if they crossed in advance of the time. So thick were they that the long line of restless people seemed living marks to show the boundaries.

Maj. Bernard laid his plans well to give all an equal chance. The various officers compared time pieces and the word to go. Maj. Bernard's bugler announced it at Brown's Valley, and as the notes resounded from the hilltop a rapid firing of musketry all along the line carried the word to the eager mul-titude which started off at break-neck speed for the promised land, through mud and slush. The mud had no terrors for them and pools of water, even small lakes, did not deter them, if by driving through them they could reach a coveted quarter section sooner.

uarter section sooner.

Last night a party of nearly 200 under
the leadership of Oklahoma Charlie, attempted to cross Lake Traverse in the
darkness and gain the reservation. A drunken member of the party, however, let the matter out. A detachment of soldiers met them as they landed, con-fiscated the boats and drove them from

the reservation.

There is trouble at the Brown's Val-There is trouble at the Brown's Val-ley bridge. Several hundred men went there yesterday, determined to cross. Capt. Ellis with fifty cavalrymen were dispatched to the scene. He was or-dered to allow no one to cross. It has been discovered that a scheme was on foot to secure the consent of land-wen-foot to secure the consent of land-wenfoot to secure the consent of land-own to secure the consent of land-own-ers along the east line of the reserva-tion south of Lake Traverse and Brown's Valley, whose lands adjoin the reserva-tion, to allow the followers of a combi-nation to cross their land into the reservation and not permit anybody else to do so. It is not known to what extent this combination worked.

The towns in the rear of the border, so full of life all the week, are now almost deserted. Even those who have no interest in the lands have gone to watch the hustling crowd. At Water town all land-seekers have gone except 1000 who felt secure in the validity of filing over the claims of squatters. It is believed there will be trouble between the filers and squatters over claims to

he same lands.

It has been a week of most in:ense on the reservation. Today the towns were nearly deserted. During the night there was a continuous scene of activity, and before 10 o'clock the muddy streets were jammed with vehicles of every character. At 11 o'clock fully 3000 persons had collected along the reservation at the head of Lake Traverse, and the cavalry had difficulty in keeping the impatient crowd in check, as they were becoming decidedly uneasy. Some settlers' outfits were unique and interesting. A large claim shanty with red window blinds, on wheels, was drawn up to the line, with a family living in it. Covered wagons in large numbers drew up and prepared for the race. A sack of feed, bunch of hay and spade composed the outilt of some, while others had wagons loaded with lumber for shantles, surmounted by small stoves, blankets, chairs, pans and kettles. The ubiquitous country editor, doctor, clergyman and county seat politician were all in line awaiting

seat politician were all in line awaiting for the signal.

There was the sharp, clear note of a bugle at noon, the almost simultaneous crack of a carbine, then a volley from the whole far-reaching line of cavalry as the signal was taken up and carried-up in reverberating report to the thousands of waiting ears, and the Sisseton reservation was open. Five hundred teams plunged madly forward across the prairie, with drivers regardless of direction. The horseback riders soon took the lead. Far up the lake a large direction. The horseback riders soon took the lead. Far up the lake a large party crossed in boats and succeeded in entering the reservation five miles ahead of the crowd, but even then other than the control of the crowd but even then other than the control of the crowd but even the crowd but even the control of the crowd but even the ahead of the crowd, but even then others got in ahead of them. It is estimated that 1000 people made the rush from Brown's Valley, about 500 from Travare and some 600 from Wheaten. In spite of the efforts of the owner of the private bridge to stem the flood of boomers across the bridge in the interest of a land company. the police force was across the bridge in the interest of a land company, the police force was overwhelmed and lost in the struggle for the bridge. A large crowd also set out from Ledgerwood. There was a wild rush from Hankinson. A solid line south of there was awaiting the opening, and in several instances half a dozen made for the same claim, and trouble was feared. At Wedbay, on the southwest, some NOO or 600 people.

trouble was feared. At Wedbay, on the southwest, some 500 or 600 people joined in the rush.

From Wilmet there was a great rush and the train on the Milwaukee road pulled to the end of the track at a signal, from whence the boomers rushed to the lands on fast mustangs, which were provided by Indians at big prices. In fact the Indian is a great man all over the reservation today. The on-rushing boomers from north, west and east met in the reservation, and if there is any trouble it will come and if there is any trouble it will come

Gov. Mellette of South Dakota has 250 deputy sheriffs, heavily armed and instructed to maintain order on the re-serve. Every section of Coddington county, of which Watertown is the serve. Every section of Coddington county, of which Watertown is the county-seat, was occupied by from one to five squatters before 1 o'clock. Numerous altercations ensued, but no bloodshed is reported. It is believed that the deputy sheriffs and militia will be able to maintain order. Many squatters have already begun the erection of houses, but a majority commenced the settlement by digging wells and cisters, or by plowing the soil.

At Fargo 100 filings were made in the course of the afternoon. Rev. Mr. Van Horn of the Baptist Church, Presiding Elder Cooper of the Methodist Church, and a lady are among the number. A number of filers will profabily lose their claims through squatters reaching the land first.

Three thousand men were in line here

lose their claims through squatters reaching the land first.

Three thousand men were in line before the land office at Watertown. The first place in the line sold for \$3000 and the 126th for \$2. Everything passed off quietly. Lee Stover, a local attorney, who purchased the first place at exactly noon, filed one declaratory, and tendered 110 others, which were valented. The filing proceeded rapidly and tendered 110 others, which were rejected. The filing proceeded rapidly and it is thought the line will be exhausted by night. An unconfirmed report of the killing of a squatter in Grant county, but no particulars of this or any other serious trouble are received.

Estimates place the number of settlers who went on the reservation to-day at from 2500 to 3000. Every per-son who wanced a claim got one and there seems to be plenty of vacant land

left.

Brown's Valler (Minn.,) April 15.—
The sharp, clear note of the bugle at noon today, the simultaneous crack of a carbine, then a volley from the whole, far-reaching line of cavalry and the Sisseton reservation was open. From the bushes along the shore of the Minnesota River, from ravines hitherto supposed to be unpopulated, from every conceivable spot bordering on the reservation that could shelter a man, horse or wagon there sprang a hoard of homevation that could shelter a man, norse or wagon there sprang a hoard of home-seekers, and the race for land began. There are fully 5000 settlers in the reservation. They are pretty evenly divided between the northern and eastern borders. The squatter is monarch of all he surveys. The filer is literally out of the running. The rush was made with all sorts of

conveyances, on horseback, in wagons, buggles and on foot. Riders and drivers lashed their horses to the top of their speed in the struggle to get there first. Ida Burnett, who graduated at the University of Minnesota, a strikingly handsome girl with a dash of Indian blood, is by this time the possessor of one of the choicest quarter sec sor of one of the choicest quarter sec-tions about the town site. She was the first on the field behind the fastest steed obtainable. She staked out a claim at once and went to work erecting a shanty.

Gov. Mellette had 250 deputy sheriffs on the reservation heavily armed to maintain order. Wells are being dug everywhere. All squatters apparently intend to live on the land. Plows will soon be going everywhere.

intend to live on the land. Plows will soon be going everywhere.

FARGO (N D.,) April 15.—One hundred applicants were in line here for the Sisseton lands. Applications were taken twenty-five per hour. Everybody was good natured.

WHEATON (Minn.,) April 15.—At noon guns were fired for the opening of the land, and the anxious crowd of 1,000 men, women and children made the rush. The greatest rush seemed to be on the Milwaukee road from Wilmot in an endeavor to locate a town site. Crowds are still seen coming from the north.

THE OKLAHOMA BOOMERS

Thousands Gathered on the Reservation Borders Awaiting the Opening Day. EL RENO (Oklahoma,) April 15.—[By the Associated Press.] Boomers conbut the crowd will not be as great as that which entered Oklahoma. The boomers do not seem to have cash, though most have flour and bacon, and hundreds realize that they are not in a condition to hold down a claim, but hope to secure a good piece of land and sell it out in a day or so. If they fail they will be reduced almost to starvation. Perhaps 12,000 are ready to enter from the East. There are 8000 from Urchita county, while about 8000 Texans are

county, while about lexans are drawn up on the south line. Not many people are on the west side. No trouble is yet reported, and none is anticipated. Kingrisher (Oklahoma,) April 15.—
There is an unconfirmed rumor that two "Sooners" were killed yesterday in the Cheyenne and Arapahoe reservation for resisting arrest. Dense crowds tion for resisting arrest. Dense crowds of colonists continue to come by wagon and train. The excitement increases. People of all classes are preparing for a wild rush next Tuesday.

PARIS, April 15.—|By Cable and Associated Press.] The indictment of Ravachol, the Anarchist, and his five accom-plices, including Mariette, mistress of Beatot, one of the accomplices, was presented today. It gives the first conected history of the conspiracy in which the prisoners are implicated.

The facts of the case open in April, 1891, when De Camp, an associate of Chaumartin, was convicted of wounding a policeman in an affray. The plotters met at Chaumartin's house and arranged a programme of revenge.

The first victim selected was Judge

Benoit, who presided at the trial resulting in DeCamp's conviction, and Boulot, who prosecuted him. The indictment details the story of the stealing of the dynamite and the making of bombs by Ravachol, who filled them with a mixture of dynamite, grisoutine and iron. The conspirators also planned to blow up the police station at Clichy, March 7 Rayachol, Simon and Beatot Ravachol, Simon and Beaton March 7. went to the police station, carrying with them a saucepan loaded with dyna-mite. They had a number of fuses ready for use. When they arrived at the station they found an officer standng in the doorway; his presence foiled

their design.

The indictment next details the explosion at the residence of Judge Be-noit in the Boulevard St. Germain and how failing to kill the judge, they made a second attempt; how Ravachol and his fellow conspirators, working by re-ceipts the yprocured from the Interna-tional (newspaper,) made a bomb filled with nftro-glycerine, mining powder and sebastine. The evidence of a woman named Chevalier is embodied in the indictment. She describes how upon entering the room in which the conspirators were at work, she saw a man holding a vessel as large as the crown of a hat, while Ravachol poured drops of something into the receptacle and Chaumartin stirred the mixture

with a spoon.

Ravachol, the indictment states, alone effected the explosion at the residence of Prosecutor Benoit in the Rue Clichy. He placed an explosive compound under the staircase in the belief that none of the inmates of the house could possibly escape death. The indictment also reveals the fact that the prisoners were engaged in a plot to blow up the Palais de Justice at a time when it should be

nost crowded. Ravachol's brother was today taken to the prison where the Anarchist leader is confined. There was an immediate to the prison where the Aharemst leader is confined. There was an immediate recognition between the two men, which is regarded as having established the prisoner's identity beyond doubt.

THE MAFIA LYNCHING. How London Papers Regard the Settle-

LONDON, April 15.—|By Cable and

the United States says:

Upon a great Christian anniversary like Good Friday it is often difficult in the record of current events to find anything that very distinctly shows the influence of Christianity upon international conduct. Today, however, we have to chronicle what is, at least, one of the most benign and gracious forms of diplomatic actions. This is the amicable settlement of the dispute between Italy and the United States. The thing is all the more precious because Blaine is not, perhaps, quite the first flower of Christian chivalry. Italy is too far apart from the United States for the breaking off of diplomatic intercourse to produce very serious consequences, but Italians, nevertheless, are to be congratulated upon the concession of their demands and upon scoring a genuine diplomatic triumph. genuine diplomatic triumph

The Daily Graphic, under the caption, 'Blaine's Latest Surrender,' says: The result establishes an important prec-dent in which the countries of Europe are eacht in which the countries of Europe are interested. It establishes the responsibil-ity of the Federal Government of the United States for the safety of strangers within her gates, no matter how local au-thorities may choose to act.

San Francisco, April 15.—[By the Associated Press.] M. H. de Young, a member of the Republican National Committee, returned today from Chi-cago. He said: "I found everywhere strong feeling for Blaine. I learned that in States whose conventions have declared for Harrison if Blaine would permit his name to go before the Na-tional Convention the delegations would vote for him. The general sentiment is that Blaine's name will be hurled into the convention at the last moment. I a carvass for the nomination, but if the people insisted on his running that he would submit to the carrier of he would submit to the popular will. I think Blaine wrote that recent letter, stating that he would not be a candidate, while he was in poor spirits, superinduced by ill-health. Gladstone Preparing for the Coming Campaign - The Great Cotton Spinners' Lockout Likely to Be of Short Duration

By Telegraph to The Times.

LONDON, April 15.—[Copyright, 1892, by the New York Associated Press.]
The revelations made before the committee inquiring into the state of the British army have been the sensation of the week. Leading military chiefs concurred in the opinion that there is hardly a single infantry battalion at home that is effective. The revelations will lead to active agitation in Parlia-ment as soon as recess is over, the Sec-retary of War having promised that he will not obstruct a full discussion and

sweeping reforms.

Adjt.-Gen. Wood declared that 50 per cent. of the men encamped at Aldershott are unfit for camp duty and for a day's service on account of youth and lack of stamina. The Duke of Cam-bridge, commander-in-chief, indorsed the startling statement, adding that if called upon to mobilize two army corps on short notice it would be impossible, and he did not think it possible to mobilize one corps composed of twenty-five battalions of infantry.

five battalions of infantry.

In response to the query: "Are the battalions fit for home defense?" Lord Wolseley replied: "If we were invaded tomorrow they would be better than nothing." He said the volunteer force was the most important factor in home defense.

The Duke of Connaught said that if his command were ordered to service.

his command were ordered to service, not half of them would be allowed to go, on account of their unfitness. main cause of weakness of the battalions is stated to be depletion of the best men for foreign and colonial service. Lord Wolseley likened the forces to a squeezed lemon. The Duke of Connaught held that grown men would not join the service, as wearers of the Queen's uniform are socially ostrabised, and because soldiers are wantonly burdened with excessive sen-

try duty. In regard to strengthening the home battalions, the concensus of opinion favored more liberal pay and better

pensions.

IMPORTANT RULING.

A Decision of Much Interest to Druggists and Their Clerks.

SACRAMENTO, April 15.—[By the Asso-ciated Press.] Superior Judge Van Fleet rendered an important decision Fleet rendered an important decision today which interests druggists throughout the State. Thomas Y. Tallman, the manager of a local drug store, applied to the State Board of Pharmacy for a certificate of registration as a practicing pharmacist, but was refused on the ground that he was not what he claimed to be; that he was simply con-ducting a place for another. Tallman then brought suit in the Superior Court for a writ of mandate to compel the

board to issue the desired certificate.
The court decided against Tallman.
"The petitioner cannot," says the
Court, "in the sense of the statute, be
held to be the conductor of the pharmacy or drug store in which he is em-ployed. He is engaged to manage the business of the store for his employer with, it is true, considerably enlarged powers over the ordinary drug clerk, but nevertheless, as the evidence discloses, without the right to final discretion which would make him other than the clerk or agent of his employer."

Crime at Ventura.
VENTURA, April 15.—The county auditor and recorder has been found short about \$1100. His bondsmen made it

good today and invited him to resign. Gambling caused the difficulty. A brute named Azbill raped the eight-year-old daughter of J. L. Barnes, living near Bardsdale, this county, and made his escape. He was followed and arrested near Newhall and is in Jall. The child is in a precarious condition

May Get Collector Berry's Place SAN FRANCISCO, April 15.-A Wash-gton special says: "There is a report ington special says: "There is a report that J. W. Thompson of San Diego may be appointed Collector of Customs at San Diego in place of Collector Berry."

Soldiers' and Sailors' Encampment. It has been decided that the annual encampment of the Southern California encampment of the Southern California soldiers and sailors is to be held at Ventura on July 19, to last ten days. The Ventura people have made a very liberal offer, having tendered the use of the City Park for camp purposes, including electric lights, wood, water and straw, with the use of Armory Hall for entertainments and meetings, and a contribution of \$1000 to the fund.

Beat Their Wives. Mrs. Nora Coffey, who resides at No. 915 South Main street, yesterday swore to a complaint against her husband charging him with battery. She al-leges that he gave her a severe beating Thursday evening.

Mrs. Cleo Batello also wants her husband punished for beating her on the 7th inst.

SUCCESS OF A NOVEL INSTRUMENT The Mysterious Restoration of Desiness by an Unseen Device—Old Theories Successfully Applied.

During the past few years there have been many rumors of the restoration, in some mysterious way, of the hearing of those who were known to have been deaf for many years. This has led to an investigation by those interested, and it has been found that this happy change has been made by the use of a most simple, yet ingenious device, which was invented by a gentleman in Bridgeport, Ct., named N. A. Wales. This device is the same to the ears, as are glasses to the eyes, and is simply a soft rubber disc, arranged on a rubber spring, and so shaped that when inserted in the ear, it will focus the waves of sound on the natural drum, thus increasing the vibration of the latter.

The possibilities of a device of this nature have long been known, but the many attempts to use this knowledge have been such utter failures that it was considered beyond our present knowledge of the ear to make a practical instrument of the kind. Consequently when this device was first it vented, not much attention was given one and the such utter failures that it was considered beyond our present knowledge of the ear to make a practical instrument of the kind. Consequently when this device was first it vented, not much attention was given one sight prejudice was dispelled, until, at the present time, most physicians and aurists look kindly upon the instrument, and seem pleased at the success it is meeting.

At a recent interview, Mr. Wales made the remarkable statement, that to his knowledge, the device which he calls Sound Disc, had never failed where relief was afterward obtained by any medical, surgical or mechanical means, excepting a powerful than his device. It would seem to be an advancement in the science of accoustics, by relieving the most obstinate cases which had defied medical treatment for years.

What may be the deaf, as it is worn in the ear, out of sight, for months at a time, and as far as we can learn, is pronounced safe and comfortable for the patient. Many times it has proven liself to be an advancement in the science of

SAN FRANCISCO MARKETS.

SAN FRANCISCO, April 15 .- [Special to the THE TIMES.] The fruit market was quiet.
The arrival of five cars of oranges this
morning, added to the previous large supplies, occasioned a falling off in prices Choice navels alone are fairly firm.

The market for dairy produce is in a very demoralized condition. Receipts of butter are very large and in view of the falling off are very large and in view of the falling off in shipping demand stocks are accumulating beyond all requirements. Eggs are lower. Large shipments due from the East make the market much weaker. The vegetable market showed considerable activity. While receipts of green stuffs were large, a good demand and slight shading of quotations caused a good volume of business to be transacted.

ELEGANTLY ENTERTAINED.

Mrs. William Ferguson extended her hospitality most graciously to the ladies of the Orphans' Home Board last Thursday by entertaining them royally at a luncheon at Hotel Raymond. All the details were carefully arranged and admirably carried out. The ladies were the guests of Mrs. Ferguson from the time they left Los Angeles on the noon train till they returned late in the afternoon. Lunch was served at 1 o'clock from a long was served at 1 o'clock from a long table elegantly laid, a magnificent pyramid of roses rising from either end. At each plate was a cluster of long-stemmed roses of the choicest varieties. The menu was elaborate and the service faultless.

RECEPTION TO MISS WEST. A farewell reception was tendered Miss Mary Allen West, editor of the Union Signal, at the residence of E. T. Bryam, Glendale, last evening. A large number of invited guests were present to enjoy the opportunity of seeing Miss West once more before her departure for Japan, which country she expects to visit soon, in company with her friend and co-laborer, Miss Frances E. Willard. Miss West has been the guest for the past two or three months of Mr. and Mrs. John Hobbs, at their residence near Glendale, and leaves Southern Clifornia full of admiration for and appreciation of its many natural beauties and advantages.

Lieut.-Col. Howland will arrive in the

city from Pomona this morning and at once take charge, when the regular routine at the armory will be resumed. The detail for the court martial has not yet been announced.

MORE TROUBLE FOR RUSSELL.

When the charges now pending against Russell are disposed of it is more than probable he will be called upon to answer for another breach of military law. When he assumed com-mand of the regiment one of Russell's first acts was an order appointing J. Fred Blake, captain and adjutant: John Bloeser, first lieutenant and quarter-master, and John Hughes, first lieuten-

master, and John Hughes, first lieutenant and inspector of rifle practice.
Under the regulations, Russell had no authority to make these appointments, the colonel only having the power to recommend when, if satisfactory, they are appointed by the commander-inchief and the necessary orders issueed. This being the case, Capt. Franklin, the adjutant, declined to obey the order, and at once communicated the state of the case to general headquarters.

Last evening Capt. Franklin received a letter from Adjt.-Gen. Allen, stating that his protest relative to the appoint-Russell of John Bloeser as ment by acting adjutant has been approved, and stating that official notification would follow through the regular channels. He further stated that some other legal points may arise relative to the mat-

AMUSEMENTS TONIGHT.

THE THEATER-The Cattle King. AT THE OPERAHOUSE - Hazel Kirke

It is said that the tomb of Francis Marion on the Belle Isle plantation, near Pineville, S. C., is a ruin overgrown with shrubbery. Even the de caying remains of the big tree that was blown across the tomb years ago, smashing it as it fell, still lie there untouched. At Plineville is the old Episcopal Church whose bells rang out the first time in many years on the day of Jefferson Davis's funeral.

THE Risdon Iron Works desire a large site for their plant in order to under take the work of shipbuilding, and both Oakland and Vallejo are making bids for it. Oakland is in a position to offer many advantages that Vallejo has not, but her citizens are slow in getting to work, while Vallejo, with fewer advantages, has already shown a determination to win by taking active steps toward obtaining a fine site to offer.

THE tendency of the manufacturing establishments of the United States to decrease in number and increase in size is strikingly shown in the census bulletin on the woolen industries of the country. In 1870 there were 3791 woolen mills in the United States. These had decreased to 2689 in 1880 and to 2503 in 1890. The capital inwested in these mills however increased from \$159,091,869 in 1880 \$314,309,944 in 1890 and the amount of manufactured product from \$267,252, 913 to \$338,231,109. These figures do not include 271 mills that were not in operation in 1890.

THE steady change in the character of New England's population, which has been visible for more than fifty years, is strongly emphasized by the Census Office report on the nativity of the inhabitants of the six States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. In 1890 there were in these six States 4,700,000 persons, of whom 1,114,000, or about 25 per cent., were of foreign birth, the number of foreignborn persons having increased 348,000, pr about 43 per cent., since 1880. The number of native-born persons in New England has increased 341,000, or about 10 per cent., in the same period.

THOMAT NAST, who is now furnishing full-page cartoons for the Chicago Inter-Ocean is opening the vials of his ridicule against New York. In last Sunday's issue he has a particularly good hit against Gotham by representing it as Rip Van Winkle awaking from is twenty-year's sleep. A legend in one corner reads "Tweed ring 1872, ring within ring 1892, He wakes once in twenty years." A burly policeman, club in hand, stands before the prostrate old man, and says: "Hushgo to sleep again or I'll run you in." Nast may not be able to draw as artistically as some people but his right hand has not lost its cunning in carica-

Something of a howl has been raised against an appropriation by Congress for the entertainment of the forthcoming Grand Army encampment in Washington. The Washington Star shows how groundless this is by citing the fact that wherever the encampment has been held hitherto an appropriation has been secured either from the State or the municipality to augment the fund raised by private subscription for the entertainment of the veterans. Washington proposes to raise a large sum from individual contributions, but it has no State organization to appeal to for an additional appropriation, and must go to Congress as its Legislature. Some people would rage over the idea of entertaining the veterans at all.

SECRETARY RUSK of the Government Department of Agriculture is preparing what is certain to be pronounced a marvelous agricultural exhibit. It will be at once a striking demonstration of the broad scope and efficient work of the department of which he is the head, and a school of instruction for all who are interested in agricultural matters. It will include full illustrations of va rious insect depredations, a mammoth globe representing graphically the history of pleuro-pneumonia and its remarkable extermination in America; a model of the famous Death Valley, with its strange fauna and flora, and a working set of a modern weather station's outfit. Under the immediate supervision of Expert Hubbard the most complete and comprehensive collection of grains ever made is being prepared, with the cooperation of the farmers in this country and in foreign parts. Samples of wheat grown in every county in the United States will be shown Grains from Peace River in Northern Canada to Patagonia, from Russia to India, will be in the collection; every seed picked by hand and the varieties rranged in tasteful glass compartments with labels indicating the name, place, ight and effects of the soil and clinatic conditions. There are now col ected 2000 samples of wheat, 1000 of ts, 5000 of rye, 8000 of barley, 800 ckwheat, 1500 of corn (besides exhibit of corn in the ear) and pro ate numbers of the various other ns and gafden products. THE TIMES-MIRROR COMPANY.

For Protection and Kidney Cure We fear that our Democratic contem orary, the Herald, has been tricked by a wily advertiser into giving a quasi indorsement to a political proposition which it very much dislikes. We refer to an article which appeared yesterday morning under the caption "The Silver Nail," followed by a capitalized intimation about a plan for "hitting it squarely on the head" and "a solution of the question." The article is ostensibly taken from the New York Journal of Finance, but we apprehend that it was clipped and sent in by the advertising agent of H. H. Warner, the great kid ney curist. It is, in fact, an interview with Mr. Warner, and, along with some oblique references to kidney and liver complaints, it outlines a plan for the re habilitation and protection of silver as a coin medium. This plan is, in short, to establish a nearly prohibitive duty on the importation of silver. The great safe-cure man asks:

safe-cure man asks:

"Why should not silver, which is one of
the largest productions of this country, be
protected as well as wool, cotton or iron;
By this method our silver mining industries, which are now being shut down, owing to the low price of silver, would rapidly
reassume the prominence so recently attained, and the demands of our country for
silver for coins and the arts would be supplied from our own mines."

"In other words, Mr. Warner, you would
properly protect silver mining industries
the same as other industries and products!"

"Precisely."

That the Herald, which, in good ortho

lox Democratic fashion, abominates any kind of a tariff except one for revenue, and scouts the idea of building up merican industries in this way, should be tricked into publishing such a declaration under the caption of "hitting the nail on the head" is truly pathetic. It is published, too, in the reading columns, without any advertising mark whatever, and must go forth to the great Domocratic public of Southern California as the sincere sentiment of our contemporary. Many a man has been warned out of a Democratic community and many a newspaper has been tabooed or sacked for no worse offense than that. Of course the great unwashed cannot be expected to see the safe liver and kidney cure handle to the thing, and their confidence in the integrity of the Herald's position on the tariff will be shattered. It is thus that great careers are wrecked by over confidence in one's friends and

advertisers. However, Mr. Warner's plan for protecting silver as other American indus tries are protected strikes us as a pretty good one. We hope the Herald may be forgiven for being right on one political proposition, even though in so doing it has antagonized a leading tenet of its party.

Let the New Competing Overland

Road Come South, A number of wealthy men of Sar Francisco, seeing the commercial decadence of that city, have at last combined to rescue it from the condition of dry rot into which it has fallen, and build a railway to Ogden, there to connect with the lines reaching eastward. The names of the men who are engaged in this enterprise are a guaranty that the great work will be done. They had grown rich, and had sat down in peace to leave their accumulations to their children, but the growth of Portland Spokane, Seattle, Los Angeles and San Diego has shown them that their children would have no inheritance if the do not take active steps toward the

protection of what they have. The people of Southern California are interested in this great work. The projectors propose building their line up the Sacramento Valley and cross the Sierras through Beckwith Pass-thence across the desert to Ogden. A better line will bring them within 100 miles of Los Angeles, giving them not only a large share of the traffic of the San Joa quin Valley, but also a share of that of outhern California, a business of itself equal to all of that of the whole State north of Tehachepi. Southern California should offer inducements to the San Franciscans to build their road via Walker's Pass, even if this end of the State has to build line to connect Los Angeles San Diego with it. Every city, town and hamlet in this end of the State is interested in this matter, and there should be concert of action among all the people. If Los Angeles and San Diego would call meetings, appoint committees to formulate plans, and put the ball in motion, the rest of Southern California would join the procession. and the project could be made a success. Here is a field for the display of energy

The San Francisco Chronicle of Thursday printed another news state-ment of the new movement, and also p

the following editorial, which presents HON. CARTER HARRISON. the enterprise in a favorable light:

A COMPETING RAILROAD. Yesterday's Chronicle contained a plecof information which cannot fail to inter est every citizen of California. It was to the effect that a number of wealthy men in the effect that a number of wealthy men in this city have quietly got together, without any flourishing of trumpets or beating of drums, and subscribed \$3,000,000 for the construction of a railroad between San Francisco and Salt Lake. The subscribers are all men of ample wealth, and their purpose is indicated by the agreement into which they have entered that the road when completed shall not be sold to any competing line for ten years from the date of its completion, and that it will not pool earnings with any other road.

earnings with any other road. It is in this way that genuine railroad ompetition comes about in most cases Whenever an ostensible competing railroad s started with a great hurrah and a lavish display of prospectures and advertising the chances are that the move is purely a spec-ulative one, intended to force one or more of the established lines to buy out the pro-jectors or admit them to a share of existing business.

certainly it is a much more hopeful sign for a competing road that it is planned quietly and unostentatiously, than it would be were it ushered in by the ringing of bells and the tooting of horns. The men who are behind this undertaking are little apt to throw away their money in building railroads for sentiment or from a desire to have their vanity gratified by being called railroad magnates. They have studied the situation, and if they undertake to build a railroad to Salt Lake they will build it. It would be useless to enumerate the ad-

raliroad to Salt Lake they will build it.

It would be useless to enumerate the advantages of a competing raliroad, for more sermons have been preached from that text than from any other that can be recalled. All we can say is that the new enterprise should receive encouragement in every way possible, and that it should be pushed to completion as rapidly as circumstances will permit.

We again present for the con these proposing San Francisco rail-road builders-who are partly on the right track-the expediency of coming south with their proposed line. Let them carefully examine the ground, and all the considerations which properly enter into the question, and they will come to the conclusion that their interest, as well as the true destiny of this new enterprise lie in this direction. The active cooperation of Southern California is something they might seek with great advantage.

To our people of Los Angeles we comnend this new railway project as something worthy of careful investigation. Will not twenty or fifty leading business men of this city get together, and, without noise or buncombe, take the matter up earnestly?

It is said that both Tennessee and Florida see their great blunder in neglecting to make suitable appropriations to the World's Fair. Some enterprising citizens of Florida are trying still to remedy it. They propose give to each subscriber to a \$200,000 fund advertising space in a paper to be distributed at the Fair. Chicago paper observes that Florida and Tennessee might as well "put up their shutters" and take a vacation until the boom of their enterprising neighbors has ended. Florida espe cially will find she has been "penny saving and pound foolish."

THE distinction between a hustler and rustler, two terms which are now quite common by reason of recent stirring events is thus given: When a hustler is too near-sighted to distinguish between his own horse and that of his neighbor, they call him a "rustler." And after that he is apt "mysteriously to disappear."

AMUSEMENTS.

AT THE PLAYHOUSES

Los Angeles THEATER .- James H. Wallick and his troupe of horses and players produced *The Cattle King*, a wild-eyed melo-drama of the far West, at the Los Angeles Theater last night with much delight to the gallery gods, who love action in a play, plenty of it.

. Wallick's dramas are the very apoth-

eosis of the penny dreadful novel and about as awfully bad in construction as it is pos-sible to imagine, but they are full of hairsible to imagine, but they are full of breadth escapes, daring rescues, flying horses, unhappy lovers and victims of stake-burnings, which gives them spirit and movement, although the piece produced last night is more talky than The Box King, in which the company previously ap-peared. Mr. Wallack acts in the dual rôles of "Bob Taylor," the American cattle king, of "Bob Taylor," the American cattle king, and "Dare,devil Dick." a great Pacific Slope poker player, and finds himself kept Slope poker player, and finds himself kept busy trying to do up a Mexican ranch boss, who has designs ferninst a girl that "Bob" is stuck on. They glower at each other frequently, draw daggers, and guns and get into generally unhappy relations but it all comes right later on, naturally and of course. Some of the members of Mr. Wallick's company display considerable ability, notably Robert Ransom as "Bill Mexico" and Willard Simms as "Barney Ryan." The former's marriage ceremony in the last act was excruciatingly funny and convulsed the house with laughter. The horses do some clever tricks and were warmly apsome clever tricks and were warmly ap-plauded. The same play tonight will close

ATTRACTION TONIGHT.—Hazel Kirke will be produced at the Grand tonight, under the direction of Prof. Henry Ludlam, for the direction of Prof. Henry Ludlam, for the benefit of the News and Working Boys'Home. Aside from "sweet charity's sake" and the excellence of Prof. Ludlam's presentations, the play is in itself one of the most charming on the boards. Popular prices will rule, and the excellence of the cause for which the piece is to be brought out should insure a big house. The cast comprises a number of the city's best known amateurs, and has been given heretofore in this column.

Yesterday afternoon, as McClees was passing along Hill street, near First, he heard a child screaming, and, on mak-ing some inquiries, he was informed that the woman who occupied the house from whence the screams came was in from whence the screams came was in the habit of unmercifully beating her four-year-old child, and that some one should interfere. McClees at once went to the house, when he was met at the door by the woman, who not only admitted that she had been beating the child, but signified her willingness to give any one who interfered some of the same medicine, and without wasting any time assaulted McClees with a club, at the same time using the vilest language.

Chicago's ex-Mayor Given a Reception.

Greeted by a Large Number of Citizens Last Evening.

The Freedom of the City Extended by Mayor Hazard.

The Courtesy Acknowledged by the Di tinguished Guest in a Witty Speech -A Good Opinion of California,

The informal reception tendered last vening to Hon. Carter Harrison, editor of the Chicago Times and ex-Mayor of Chicago, called out a large number of the representative business men of the city, and many more would doubtless have been present had it been possible to give a longer preliminary The Chicago editor is an active man, who never stays in one spot many min utes at a time. For days the directors of the Chamber of Commerce have been trying to arrange a reception for him, but were unable to locate the distin guished guest long enough to do so. On Thursday, however, after sending numerous telegrams to various towns in adjoining counties, he was discovered at Riverside, and arrangements were speedily made for the reception which ccurred last evening at the Chamber

of Commerce.

It was 8:30 o'clock before the hor It was 8:30 o'clock before the honored guest of the evening, escorted by C. M. Wells, president of the chamber, and Mayor H. T. Hazard, appeared on the platform, where were seated Maj. E. W. Jones, L. N. Breed, Robert McGarvin, Col. H. G. Gtis, of The Times, E. F. C. Klokke, E. F. Spence, A. D. Childress, H. Jevne, W. E. Hughes, A. W. Francisco, W. T. Johnson, D. McGarry, S. B. Lewis and H. O. Collins. Mr. Harrison was introduced by C. M. Wells as one of Chicago's most distinguished citizens and one who, of all other Chicagoans, toward which city our own sustains such close relations,

our own sustains such close relations had shown the most kindly courtesy to

California and Californians.

The freedom of the city was then presented to Mr. Harrison by Mayor Hazard, who delivered to him with an approach a ponderous key, four priate speech a ponderous key, four feet long and decorated with red, white and blue ribbons.

In response Mr. Harrison said that in

accepting the key he felt that he had taken a good deal of a burden upon him-self; if the lock were as big as the key it would require a good deal of strength to turn it and more to push the door open after it was unlocked. He spoke modestly of his kindness to California, turned a clever joke at the expense of ex-Mayor Spence, indulged in a few pleasantries, and then, turning to more sober themes dwelt upon California in general and Los Angeles in particular— the resources and future prospects of Southern California. He alluded to Los Angeles as the Chicago of the West. about as busy and active as was Chicago when it had the same population. He advanced the novel and entirely origi-nal idea that California does not belong to America, but, judging from the qual-ity and capabilities of the soil, must have split off from Asia during some mighty upheaval of nature, and floating over here, driven by some great cyclone, had welded itself to our continent. In support of this conclusion he mentioned the peculiar characteristics and hospitality of its soil. Plants, trees and vines grow even more thrifty than in their native land. Comparing the population of California with that of Japan he demonstrated that homes could be furnished for 28,600,000 pe could be furnished for 28,600,000 people within the 15,000 square miles of territory south of Cape Concepcion, providing the people lived as they do in Japan, three and one-third persons to every acre. In Japan, however, they raise three crops, while here but one. raise three crops, while here but one. This brings the population down one-third, or to about 9,500,000. If Californians require three times as much to eat as Japanese then we should have a population of between 4,000,000 and 4,000,000 people south of the divide. "And right here," he added. "I want to offer a piece of sage advice. You ought to cut off from Northern California. Landause II.

"We Democrats are boss, however, in the House of Representatives, thereyour only way is to turn Democrat,

buy the Chicago Times and become an independent State of your own." [Laughter.] In speaking especially of Los Angeles he urged the necessity of making more parks. "Make it the sanitarium of the whole United States and deck it up as a park as nature intended," he exclain "If I were mayor," he continued, " would go in for a magnificent system of parks. You have one with a fish pond— —little more than a frog pond—and you ought to have several hundred acres in parks. It would be a good speculation. Eastern people come here for health and stay for pleasure. Give them the

freedom of your city in magnificent parks and boulevards." In closing Mr. Harrison stated that h ld like very much to own an orange grove in Southern California, and afte telling a story about a rich Boston widow who bought a Riverside grove of a bachelor and the backelor afterward wooed and won both the widow and he o.chard, said that he would be glad to seize just such an opportunity, viz., a widow, or a young lady, and an orchard. He also mentioned the fact that it was leap year and the ladies therefore nee

At the conclusion of Mr. Harrison's speech, which was listened to with close attention, eliciting frequent applause, the reception became informal. Red lemonade was served from a punch bowl at the rear of the hall, and a gen eral social wound up the pleasant rece

tion.

The proceedings in the House of Representatives yesterday were without interest, and ordinarily the Record would be small, but Mr. Milliken of Maine will publish a brochure on "Plymouth Rock to McKinley," and Mr. Dolliver of Iowa filed for publication a series of articles from the New York Tribune which will swell the Record to a voluminous edition.

The Postoffice Appropriation Bill has been completed in committee and will be reported to the House shortly. The appropriation aggregates in the neighborhood of \$60,000,000 for the current fiscal year. The committee did not strike at the present subsidy law by withholding appropriations for its execution. Action regarding subsidies will be taken up in a general bill. John Warner, a full-blooded Choctaw,

rospects of a Rate War on Decid uous Fruits.

Retaliatory Act from the Southern sonal.

The information contained in the press dispatches from San Francisco, which ave been printed in THE TIMES, give nore hope for the ultimate construction of a competing transcontinental line than has been offered by previous rumors bearing on the same subject. It is ositively stated that San Francisco capitalists have actually put up a good rtion of the required cash for inaugurating the great work, and declare

their intention of pushing the enter-prise. The report is so positive that much interest has been excited by it. The names given of the men who subthe stock comprise many who are millionaires several times over and amply able to build the road wholly from their own fortunes, though, of course, such is not their intention, as their influence will be exintention, as their influence will be expected to supplement their cash toward interesting others in the road. The Examiner of the 14th says that A. C. Cleveland of Reno, Nev., who has been in San Francisco the past two months, working up this enterprise, feels jubilant over the result. It is known that Mr. Cleveland has been working on the proposition very earnestly and quietly. He first went to the Traffic Association to take up the matter, but it refused to do so, not because of a lack of sympathy for the movement, but on the ground that the project could be better developed by individual action. To his friends he appears to be in good spirits over the character of the subscriptions. Mr. character of the subscribers and the amount of the subscriptions. Mr. Cleveland, himself, is not a man of great wealth, being probably worth \$100,000. He is a cattleman and rancher, being owner of the Spring Hill ranch, Nevada. He is somewhat of a political manager also. Together with S. T. Gage, he was in the employ of the Central Pacific a number of years ago, attending to political matters for that corporation in Nevada. Since that time, however, he is not known to have had any connection with the Huntingtime, however, he is not known to have had any connection with the Huntington syndicate. If the project which now engages his attention progresses favorably he and his immediate friends hope that some \$2,000,000 may be obtained from the Nevada counties that will be crossed by the line, in view of the fact that at the last session of the Nevada Legislature a law was enacted

Nevada Legislature a law was enacted giving the several counties the power to bond themselves to the extent of \$5000 per mile for a railroad running east and west across the State and passing through their respective limits. DECIDUOUS FRUIT BATES. The Associated Press dispatch printed The Associated Press dispatch printed in this paper yesterday, quoting General Traffic Manager Stubbs of the Southern Pacific as saying that deciduous fruit rates would be reduced to Eastern points, was rather blind, and neither a confirmation nor explanation of it could be had here. No one knew anything about such contemplated action. The Santa Fé people are particularly interested, for they have received no intimation of the Southern Pacific intention to cut the rate, if the dispatch Intimation of the Southern Pacifi's intention to cut the rate, if the dispatch can be construed that way. It is suspected that the Santa Fé trafic officials fear the Southern Pacific will take some such action in fetallation for the arbitrary act of the former in regard to orange rates a few months ago. The present rates on deciduous fruits are \$2.50 by passenger and \$1.50 by freight train to New York, and \$2.25 and \$1.25 respectively to Chicago. These rates have been in effect since July 25, 1891, and no notice has been July 25, 1891, and no notice has been given of an intention to reduce them. In the matter of deciduous fruit ship-ments from the Northern belt the Southments from the Northern belt the South-ern Pacific has much the same advan-tage over competitors as the Santa Fé enjoys in the Southern citrus coun-try, and it is probable that the expected retailation for the orange rate matter s now to be heard from in the North. The reported reduction will be wel-comed by shippers, and make things lively between the two great railroads.

"Do You Keep Corn-meal?"

Inquired the man with the basket on his arm. "No, sir," said the grocer, "we sell it; how much do you want?" "Did I say I wanted any?" mildly asked the man with the basket, and he went out and hunted up another grocery store where the salesmen were not quite so smart.

The above is only an illustration, but there is a world of wisdom in it. We do not claim to sell you goods cheaper than any one else; we don't claim to buy goods any cheaper, but we do claim that we give the best service, the best treatment, and we claim the largest increase in business ever made by any house in this city. It matters not what, department you go into you are treated in a manner that will meet your warmest approval. Public men and politicians gain fame according to their merit for politeness and affability. Good salesmen are the ones that the general public like to trade with; an uncivil and impolite clerk is enternally shifting from one position to another; good, reliable and trustworthy employees that know the art of making friends are appreciated alike by their employer and the public; good salesmen are born, not made, and this is the only question that is asked when applications are made: "Do you know how to treat the public in a polite and affable manner, and will you do so? It is the trade-mark of this house—"Politeness and Civility to Everybody." If it is an application for a situation they are treated civilly and with respect, if it is a traveling are treated civilly and with respect; if it is a traveling man with a card in his hand, representing a house in any line of business, he is courteously received and treated with respectful consideration; we want their good will if we can't buy their goods. If a lady wants to match a sample or buy a spool of thread, or is only out for a sightseeing the orders are imperative to treat her with as much consideration as if she was buying a hundred dollars' worth of goods; when she leaves the store if we have not sold her anything we at least have her good will. The trade of this house is showing a tremendous increase.

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS of PROPESSIONAL SKILL which have from time to time been awarded to the CELEBRATED CHINESE PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers.

It has long been customary among the Chinase people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if, after having been takes no an eminent physician, he be cured of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolongation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with characters entirely meaningless to the average English scholar, but full of meafing to the successful physician and his friends. It is a motto which highly compliments the physician for his great skill in effecting a cure of the discase which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS adorning the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very superior medical ability.

John Mosun, a Slavonian, appeared before Judge Smith in Department One yesterday morning for trial upon the yesterday morning for trial upon the charge of robbery preferred against him, he being accused of having stolen two watches and a chain valued at \$70 from C. L. Cook on March I I last. Assistant District Attorney McComas appeared for the prosecution, while the defendant was represented by Fred Baker. Eso.

defendant was represented by Fred Baker, Esq.

The jurors selected to try the case were: J. L. Adams, J. M. Armour, R. Barber, W. Brunnell, B. Chubbic, C. Forrester, J. G. Letelier, J. McArthur, P. W. McStay, A. J. Painter, C. C. Warner and L. Washburn.

following witnesses were amined during the day's session for the prosecution, which then rested its case: C. L. Cook, C. C. Smith, A. B. Bates and P. Salvatore. Their testimony was to the effect that on the night of March 11 last the complainant, Cook, met the defendant in a saloon on New High street and that they drank there to-gether at Mosun's expense. As they left the saloon together Cook became dizzy and soon lost all conscionaness of his surroundings. Just before doing so, however, he felt that some one was tugging at his vest and realized that he was being robbed, but could not resist, and as Mosun was arrested by Special Officer Smith while standing over Cook's prostrate form on a vacant lot with the watches in his possession, the theory that the defendant was the thief seems well founded. The defendant, however, denied that he had robbed Cook, and claimed that the latter was very drunk on the night in question and gave the watches to him for safe keep-ing, as they were stopping at the same

SUIT OVER SMUGGLED HORSES. The libel suit of the United States against one sorrel stallion and a roan horse, branded "Y." alleged to have been smuggled into the United States by J. Harvey McCarthy, came on for trial before Judge Ross in the District Court yesterday, M. T. Allen, Esq., appearing for the Government, and J. L. Copeland, Esq., for the claimant, José G. Yorba. After the pleadings had been read, the United States attorney moved the Court for judgment thereon, on the ground that the answer was not a sufficient denial of the allegations, a sufficient denial of the allegations, but the motion was denied. Eleven witnesses were examined in all, the claimant's testimony tending to show that the horses were seized by the Mexican government, and that McCarthy had nothing to do with them at all. At the close of the testimony the matter was ordered submitted on briefs, the parties being allowed ten days each in which to prepare the same.

The trial of the sensational Burns di The trial of the sensational Burns divorce suit occupied Judge KcKinley's attention again yesterday, thirteen witnesses being examined for the plaintiff during the day's session. They were Dr. L. W. Wells, G. Atwell, G. Holterhoff, Jr., Louis Ebinger, Jacob Leiser, Louis Mesmer, E. F. Spence, W. H. H. Russell, J. Frank Burns, M. H. Bellinger, J. L. Wailace, A. J. Copp and David Carr.

A recess was taken from noon until 8 c'clock in order to allow of the deposition of Mrs. Pothoff, who was sick, be-

ing taken. The testimony taken tended for the most part to show that Burns had introduced the plaintiff as his wife

had introduced the plaintiff as his wife and that it was generally understood that they were man and wife.

Louis Mesmer was the most important witness, as upon cross-examination he admitted that Burns had asked him to fix the matmatter up for him after he had told the defendant he was not treating his wife fairly. The witness created considerable amesment by objecting to heing able amusement by objecting to being required to testify and stating that there ought not to be any court on Good Friday, as it was observed as a holy day

SUIT TO RECOVER DEFICIENCY JUDGMENT. The trial of the cases of W. F. Swayse vs. N. M. Entler, an action on a judge ment, and N. M. Entler vs. J. S. Hutchins, an action on a contract, was com-menced before Judge Shaw in Depart-ment Five yesterday, both being tried together for convenience. Messrs. Allen, Conrey and Miller appeared for Swayse, and John Haynes, Esq., repre-sented Entler.

The facts of the matter as gathered

from the pleadings and testimony are, in brief, as follows: Some time ago Entler, who owned considerable prop-erty in this and San Bernardino counties, made arrangements with Hutch-ins, who owned a hotel and land sur-rounding it, in Nevada City, Storey county, Iowa, to exchange his San Bernardino county property for the latter premises, Hutchins agreeing to accept his note for \$5000 for the balance between the values of the two properties; the same to be secured by a mortgage. This note being still unpaid at maturity Hutchins assigned his claim to Swayse, who brought suit against Entler in Iowa, and obtained a decree of foreclosure against him. The present suit is to recover a deficiency judgment of \$2700 which remains unset-

tled.
Entler, on the other hand, in his action against Hutchins claims that he was defrauded, in that the defendant misrepresented the value of his hotel and property to his damage in the sum of \$10,000. He alleges that Hutchins represented that his hotel was on a piece of land valued at \$13,000; that it was the best hotel of a thriving and it was the best hotel of a thriving and llvely town of 2500 people; that it was then leased for three years to a man who was paying \$70 per month for it and who had given a mortgage upon \$2500 worth of furniture in the hotel to secure the rent and that he earnestly desired to again lease the property for five years at the same rent, whereas, upon personal investigation, after the deal had been made he found that it was really not worth \$3000; as the fact that it only brought \$2300 under the hammer at the sheriff's sale showed conclusively.

[Branch office, No. 50 East Colorado street here news, advertisements and orders for HE TIMES are received.]

The public schools of Pasadena will re pen Monday for another two-months' ses-ion. So said the voters of this school dis-rict yesterday by a majority that cannot e misunderstood.

The election was held at the Wilson

chool building and was conducted by Capt. C. Drake, W. B. Mosher and Ambrose donahan. The polls opened at survise, and before 5 o'clock, the hour for closing, \$10 votes had been cast, of which 350 were in favor of the special tax of \$10,000 were in favor of the special tax of \$10,000 and 251 were against it. All day long active electioneering was kept up on both sides. Numerous conveyances were at the disposal of people who could find time to rote, while in the vicinity of the polling place were assembled earnest advocates on either side who tried to influence voters this way or that by pursuasive argument. The result was received with much gratification by the people generally. When the school trustees issued the call for the election and stated the for the election and stated the necessity of a special tax of \$10,000 to

necessity of a special tax of \$10,000 to meet the expenses of the current year much dissatisfaction was expressed, it being urged that the schools had been extravagantly managed, and that it would be bad policy to pay out any more for their support. Had the election been held the day after the call was issued the tax would not have carried. But further consideration seemed to convince the people that it would be poor economy to close the schools at this time of year, and that the way to attain the desired end is to elect the right sort of a man to the school board next June—facts which The Times has maintained from the start.

When it comes to the scratch, Pasa-denians always stand by the schools, and support is never lacking when the need be-comes urgent.

Today these same men occupy improved places of business on the principal thoroughfares, and not only are the older dealers, who operated so successfully during boom days, doing well, but a num'er of new men have come in to help fully during boom days, doing well, but a number of new men have come in to help attend to the business. The head of one of the heading firms, who a year ago said that things were very quiet, yesterday told the reporter that now there is plenty to keep nimself and partners busy. In referring to the large number of fresidences erected here during the past year, he said that they will be nothing in comparison to the number that will soon follow. He gave as his decided opinion that we are on the eve of a most prosperous period and predicted a big rush of new settlers during the winter following the World's Fair.

F. J. Moll writes to The Times as follows: "Having been appointed on a committee to organize an irrigation district and the procuring of sufficient water for the same. I had occasion to make quite a thorough examination of the different water sources that can be procured, as also the reservoir sites for the storing of water. I find that at an elevelton of 600 feet above the sea level, being about on the opposite side of at an elevetion of 600 feet above the sea level, being about on the opposite side of the Cahuenga Pass, there is a stream of water in the Los Angeles River bed about lifty feet wide and not less than three feet water in the Los Angeles River bed about iffy feet wide and not less than three feet deep, and according to the swiftness of the current not less than 100,000,000 gallons of water passes this place every twenty-four hours, which is afterward almost entirely lost in the sand. This observation was made during the dry season, before the late rains. Now if the city would pipe this water along the bage of the hills of the Rancho Los Feliz to a place on the opposite side of a canon known as the Sepulveda Cañon, and tunnel through the same for a distance of about three-fourths of a mile, you will find here a natural reservoir, with nearly 1,000,000,000 gallons capacity, walled in on three sides, with only an opening of some fifty or sixty feet to close and make the same complete. This reservoir is about on an elevation of 5.50 feet above sea level; from this natural reservoir site tithere is, a gradual decline, and within less than a quarter of a mile distance and with a fall of about fifty feet another excellent reservoir site is to be found, with almost the same capacity. Connecting the two reservoirs with a fume or large pipe the natural pressure of this large body of water, backed by a large flow from several thousand feet elevation, would give an almost uncalculable amount of horse power, which, I believe, would certainly be sumclent to furnish this city with electric light at night, including the valley and the very content of the same capacity with electric light at night, including the valley and the very capacity. which, I believe, would certainly be sum-cient to furnish this city with electric light at night, including the valley and the pos-sible running of the Cahuenga Valley Rail-road by electricity at day time from the city to Santa Monica. This amount of water would be more than ever needed to irrigate the section of land in question.

lookout for the hoodlums and as soon as they are caught at their mischief they will be made to suffer. The same gang were in the rooms one night recently and in their antics upset a coal-oil lamp on the floor, narrowly missing a serious confiagration.

There is considerable talk among the "tuggers" of Orange county about organizing a tug-of-war team to pull against the champion American team of Los Angeles. The late tournaments held in this county demonstrate that there were some pretty good pullers in two or three of the teams, and it would not be difficult to get together a team that would make a showing on the cleats against the champions.

ORANGE.

The busiest place in Orange just now is at the Santa Fé depot, where carload after carload of sound, bright and clean orange are being wrapped and packed prepara-tory to being shipped to Northern and Eastern markets. The fruit is first-class, and no doubt will be sold at fancy prices. but the people who purchase 4t will be grossly deceived. The brand on the boxes is "Riverside, Los Angeles and Sacramento. Cal.," there being nothing to indicate the fact that the fruit was grown, packed and whose it and from Orange country.

fact that the fruit was grown, packed and shipped in and from Orange county. Riverside is a great citrus fruit section, and its reputation in this line has gone to the ends of the earth through its own efforts and the kindly assistance of foolish neighbors in this and other counties, who permit their fruit to be shipped under a false brand. With this policy adopted who can expect Orange county to secure and maintain a reputation as a citrus-producing county?

MESTMINSTER.

A California celery company has been organized in Westminster for the purpose of growing vegetables and establishing an extensive pickle factory. Eighty acres or peat land has been rented by the company, of which W. S. Botsford of Fullerton is one of the principal members, and as the land is naturally very moist and rich, no better locality could be selected for such an enterprise. The peat land blackberry crop promises to be a heavy one.

The old schoolhouse building will be offered for sale today.

S. R. Herren has purchased the starch factory, and will move it off the present grounds and have it in running order in time to work up the next crop of potatoes.

The Southern Pacific's special train from Chino to Los Angeles, for the band concert Tuesday night, was poorly patronized, as no notice of it had been given.

A Republican caucus is called for Friday night at Sweet's Hall.

Extensive preparations are being made by the churches for Easter Sunday. At the Episcopal Church a fine musical programme will be rendered in the morning. The Methodist Sunday-school gives a missionary concert in the evening, and at the Congregational Church the choir will be assisted by the orchestra from Pomona College.

J. B. Wilkinson, formerly Santa Fé agent at North Ontario, has been appointed Southern Pacific agent at Yuma, Ariz.

The Presbyterian concert Wednesday evening was very successful. The following Los Angeles artists assisted in the programme: Mrs. L. F. Burdette, soprano; Mrs. C. E. Wenger, alto; Mr. A. S. Abbott, basso; Mr. J. F. Newkirk, tenor; Mr. Charles E. Day, baritone; Mr. C. A. Valentine, violinist; Miss Anna Douglas, planist.

EASTER OPENING

Description of the Season.

By adopting the principles of the timeworn adage, "Quick sales and small proft,"
has brought unqualified success. Thousands
of ladies cheerfully testify that Mozart's
style and quality of millinery is equal to
any in this city. Others may copy our styles,
nut none our low prices.

It is absurd for ladies to pay high prices
for millinery when at Mozart's the identical
same hat, the same flowers and the same
style may be had for much less price, sometimes 50 per cent less than many other
places. No store can live and sell cheap unless they handle the quantities. We claim
to sell more millinery then any two stores in
the millinery line in this city; therefore we
can exist on smaller profits than any compation. In all candor we ask you to come
and see for yourselves.

and see for yourselves.

The hit of the season has been our special ale of a hat and flower at 50 cents for both, a all colors and all sizes and many shapes, he same would be considered cheap at \$1

per ct. difference. ROYAL BAKING POWDER

Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United. States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent. to 60 per cent. more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third. besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable-advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.
